For users, IFTTT comes in three flavors - Free, Pro and Pro+

## Free

On the Free plan, you can enable a limited number of Applets. Either create them yourself or choose from the millions of published Applets that have already been made.

You can also [add a delay](#) before the action in your Applets.

The Free plan has no subscription fees.

## Pro

The Pro plan has extra perks.

- You can create and enable up to 20 Applets
- Perform multiple actions with the same Applet
- Pro users' Applets [run faster](#)

# Pro+

Pro+ unlocks our best and most powerful tools.

- Create and enable unlimited Applets
- Add logic to your Applets with queries and filter code
- Connect multiple accounts per service

Visit the [Plans](#) page for pricing and a full comparison of all IFTTT plans.

## Do you support annual billing?

Yes! You can subscribe to any paid plan on a monthly or yearly basis.
